Profile

A dedicated product designer with a strong focus on creating exceptionally functional user interfaces custom-tailored to supercharge startup success. Here's a glimpse of my journey:

- 3 years of experience as a Product (UI/UX) Designer

- Proficient UI illustrator

- no-code web developer

- Design System engineer

Experience

- UI Designer, Umoja Linn, Ireland, United Kingdom.

Contract

February 2023 - August 2023

- Orchestrated the entire lifecycle of a comprehensive SaaS product that caters for creatives and their clients, taking it from concept to full-scale execution. Additionally, I crafted an extensive design system to seamlessly onboard designers and developers, ensuring a smooth and cohesive workflow.

- UI/UX designer, Design Gecko, USA

Contract

January 2023 - March 2023

- Enhanced the user interface design of a Windows operating system photo editing application to elevate its usability and accessibility. Established a unified brand colour scheme for both light and dark modes, ensuring a seamless and visually appealing experience.

- Design systems Engineer,, Rvyvision

Volunteer

December 2023

- As a member of the design system team, I spearheaded the tokenization of our UI kit, guaranteeing seamless brand theme transitions across color ramps and ensuring flawless compatibility with dark mode

Open Source Contributions

- Crazy 8 Renamer (Figma Plugin that helps rename frames)

- provide guidance and mentorship to several newcomers entering the field of product design within the Orezi TV community.

Education

- Diploma in Public Administration

- Google UX Design Professional Certificate (Coursera)

-Innovation Through Design: Think, Make, Break, Repeat (University of Sydney)

-Zero to Mastery in Figma (Udemy)
