CAREER SUMMARY

A hard-working fresh graduate with proficiency in Frontend technologies, with the ability to communicate and collaborate effectively in a team setting, possessing a strong willingness to learn and adapt new technologies. I want to secure a highly profitable career as a Frontend developer, while also seeking a challenging and healthy work environment where I can efficiently utilise my skills, experience, and knowledge for the organisational goal.

EDUCATION

University Of Nigeria, Nsukka, Enugu, Nigeria

B.Agric Animal Science   **June, 2021**

WORK EXPERIENCE

Web developer Trainee

Gigo Interactive, Nigeria   **Lagos, Nigeria**
                                               October 2021 -
January 2022

- Collaborated with the product team to develop fully functional and responsive web applications
- Solved complex problems using the latest web technologies.

NYSC (Admin Support)   **Lagos, Nigeria**
Federal College of fisheries and marine technology **June 2022 - March 2023**

- Provided administrative support to my assigned department.
- Assisted the Head of Department in handling student issues, problem solving and project planning and management.

Frontend Developer (Volunteer)   **Lagos, Nigeria**

PassportMonie, Nigeria   **March 2023 - Present**

- Assist in building user interface for clients without compromising functionality for aesthetics
- Build website using latest web technologies for better SEO.
- Solve complex problems and implement responsive functions across webpage.
- Work in an agile and collaborative environment to receive design requirement and test applications.

Frontend Developer (Intern)   **Lagos, Nigeria**

Enoverlab, Nigeria   **October 2023 - Present**

- Collaborating with the UI/UX designer to close the gap between technical implementation and visually design
- Translating the wireframes for the UI/UX design into actual code that create the application's visual components.
- Build reusable code and libraries for future use and optimize application for maximum speed and scalability

PROJECTS
